- Aboud CF, 35, 908  
Abdominal fluid cytology in patients with gastrointestinal malignant lesions, 467  
Abortion, spontaneous: immunologic mechanisms in maternal-fetal relationship, 655  
Accidents: trauma prophylaxis; every physician's responsibility, 388  
Accumulation of cyclic 3',5'-adenosine monophosphate in cultured neonatal human dermal fibroblasts exposed to parathyroid hormone and prostaglandin E<sub>2</sub>, 263  
Acetylcholinesterase deficit analyzed by immunoassay and fluorescence-activated sorting, erythrocyte; paroxysmal nocturnal hemoglobinuria, 522  
Achieving enteric continence; principles and applications, 586  
Ackermann DM, 517  
Acute illness: in insulin-dependent diabetes mellitus, 820  
Acute myelomonocytic leukemia; unusual variant with both granulocytic and monocytic esterase in leukemic cells, 104  
Adrenal cortex in pediatric patients, endocrine disorders of pancreas and, 459  
Adrenal gland: endocrine symposium; Cushing's syndrome; update of diagnosis and management, 49  
Adson MA, 362  
Adverse effects of vancomycin administered in perioperative period, 721  
Agrawal KP, 778  
Ahlgren DA, 927  
Airway responses to inhaled ouabain in subjects with and without asthma, 778  
Alcoholism: risk factors for sudden unexpected cardiac death in young women in Rochester, Minnesota, 1960 through 1974, 186  
Aluminum chloride, in treatment of hyperhidrosis, 951  
Amylase activity: macroamylase, 669  
Amylase inhibitor, effect of purified, on carbohydrate tolerance in normal subjects and patients with diabetes mellitus, 442  
Amyloidosis, response of primary hepatic, to melphalan and prednisone; case report and review of literature, 215  
Anatomy of head and neck, parasagittal, 127  
Anderson CF, 853  
Anderson RE, 239  
Angiography: for delineation of systemic-to-pulmonary shunts in congenital pulmonary atresia; evaluation with the dynamic spatial reconstructor, 932  
indications for coronary; changes in laboratory practice over decade, 243  
prospective correlative study of two-dimensional echocardiography and; prognostic significance of regional wall motion abnormality in patients with prior myocardial infarction, 254  
therapeutic embolization, for extra-axial lesions in head, 427  
Angioplasty: for aortocoronary bypass graft stenosis, 14  
percutaneous transluminal coronary; current status and future trends, 865  
Angiotensin-converting enzyme, increased activity in patients with non-Hodgkin's lymphoma, 714  
Antibodies, IgG and IgM: diagnosis of *Mycoplasma pneumoniae* infections with immunofluorescence titer of, 830  
Anticoagulation: vascular complications of inflammatory bowel disease, 140  
Anticonvulsant agents, new class of, selective central nervous system calcium channel blockers, 239  
Antigen, elevation of carcinoembryonic, in cerebrospinal fluid among patients with meningeal carcinomatosis, 9  
Aorta: magnetic resonance imaging of vascular rings, 181  
Aortic dissection, progress in diagnosis and management of, 147  
Aortic valve: Cogan's syndrome; 18 cases and review of literature, 344  
Aortico-left ventricular tunnel: diagnosis based on two-dimensional echocardiography, color flow Doppler imaging, and magnetic resonance imaging, 901  
Apolipoproteins and coronary artery disease, 313  
Appraisal of endoscopic removal of malignant colonic polyps, 123  
Argon laser, treatment of red nose with, 893  
Arnold PG, 557  
Arterial disease: trends in revascularization of lower extremity, 369  
Artery: bypass grafts to left anterior descending and left anterior descending diagonal coronary arteries, initial experience with sequential internal mammary, 3  
internal mammary—its changing role in coronary artery bypass grafting procedures; editorial, 72  
Aspiration of breast, fine-needle, 377  
Assay for thyroid stimulating immunoglobulin, 753  
Asthma: airway responses to inhaled ouabain in subjects with and without, 778  
Atrial fibrillation: associated with thromboembolic splenic infarction, 967  
Atrial granularity and circulating atrial natriuretic peptide in hamsters with heart failure, relationship between, 517  
Atrial receptors, natriuretic peptides, and kidney—current understanding; editorial, 600  
Atrioventricular block, associated with Lyme disease, 745  
Auger RG, 640  
Autologous skin, cultured: for treatment of burns; editorial, 832  
Autonomic dysfunction: Valsalva maneuver and response revisited, 211
- ## B
- Bahn RS, 687  
Baldus WF, 296  
Balloon angioplasty: for aortocoronary bypass graft stenosis, 14  
Balloon dilation of coronary vessels, 865  
Banks PM, 68, 344, 411, 706, 714, 957  
Baroreceptor: Valsalva maneuver and response revisited, 211  
Barrett DM, 615  
Basford JR, 671  
B-cell antigens: peripheral T-cell lymphomas; histologic, immunohistologic, and clinical characterization, 411  
Beard CM, 186, 706  
Beart RW Jr, 140, 448  
Beauchamp GD, 185  
Bender CE, 530, 942  
Benson RC Jr, 615, 859  
Bernatz PE, 564  
Berquist TH, 942  
Biliary cancer, hepatic duct stricture after radical radiation therapy for; recurrence or fibrosis? 530  
Biopsy of iliac crest, outpatient percutaneous; methods, morbidity, and patient acceptance, 28  
Bisantrene, directed intravascular precipitation of, for pelvic malignant lesions; preclinical studies, 173  
Bite U, 546  
Bladder cancer, 859  
Bladder replacement with use of detubularized right colonic segment: preliminary report of new technique, 615  
Blindness: glaucoma; overview, 59  
Blood: apolipoproteins and coronary artery disease, 313  
comparison of three platelet markers for measurement of platelet survival time in healthy volunteers, 327  
heparin and in-hospital management of deep venous thrombosis; cost considerations, 198  
Blood flow: jet in mitral stenosis; Doppler color flow imaging; new technique for visualization and characterization of, 623  
Blood glucose monitoring: for "tight control" of diabetes, 792  
management of insulin reactions and acute illness, in insulin-dependent diabetes, 820  
practical aspects of intensive insulin therapy, 806  
Blunt splenic trauma in adults, changing attitudes toward management of, 472  
Bone marrow involvement, peripheral T-cell lymphoma simulating Hodgkin's disease with initial, 68  
Bone mineral density of spine and strength of back extensors in healthy postmenopausal women, relationship between, 116
